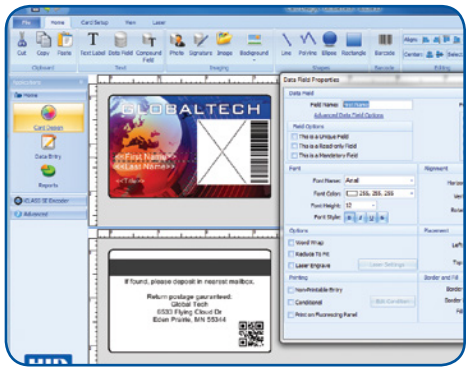
CARD PERSONALIZATION SOLUTIONS

Asure ID® SOLO

Card Personalization Software



ASURE ID® 7 IS HERE

- **Friendly and Intuitive Interface** – Enhanced user experience makes photo ID card design and data entry a breeze.
- **One Program for All Printers** – Asure ID works with a variety of printers. And while other programs come and go, Asure ID is backed by the Genuine HID® commitment so you can invest with confidence knowing we're here to stay.
- **Auto-Update** – You're always up-to-date with automatic notifications of free software updates to ensure that the software is never outdated, only available with Asure ID.

Tools at your fingertips

- Multi-task with tabbed navigation, and effortlessly switch between card design and data entry, managing each independently.
- The toolbar puts frequently used elements into logical order.
- De-clutter the workspace by hiding colors and attributes until they're needed, using pop-out control palettes.
- "What You See Is What You Get" display helps ensure accurate card design by showing exactly how a card will print, including data place-holders.

Productivity has never looked better.
Asure ID 7 changes the paradigm of how ID card personalization software looks, feels and performs. A fresh new user interface and simplified processes make ID card template design and data entry a breeze. Everything you need to design and populate a card is right in front of you in a crisp, clean environment that allows the user to glide from data entry to card design to printing.

Everyday work made effortless.
Routine tasks can be performed with a couple of mouse clicks. It's a snap to capture or load a photo, void a card or set the print counter. And you can populate card data fields directly from the internal Microsoft® Access® database. These and other frequently-used features are within easy reach on the Microsoft "ribbon"-inspired toolbar.

Asure ID "remembers".
At start-up, Asure ID initiates automatic loading of the last template used, letting you pick up exactly where you left off.

Find it fast!
When time counts, the optional **Quick Filter** allows a wildcard search on any field in the database.

Auto Photo Enhancement.
Easily enhance the appearance of an individual's photo with the click of a button.
