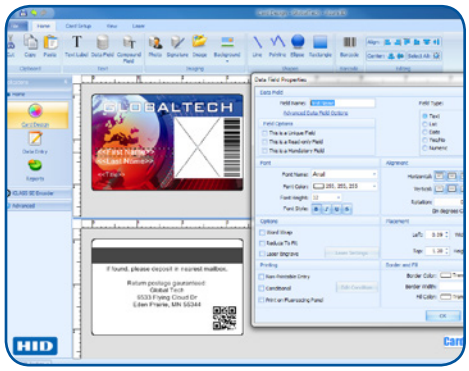
CARD PERSONALIZATION SOLUTIONS

Asure ID®

ENTERPRISE

Card Personalization Software



ASURE ID® 7 IS HERE.

- **Friendly and Intuitive Interface** – Enhanced user experience makes photo ID card design and data entry a breeze.
- **Choose Your Source** – Easily print cards from records stored in Asure ID's internal database. Or with our real-time data exchange feature Live Link, you can share across multiple workstations directly from your network's HR, security or ERP database.
- **Customized Reporting, Securely Delivered** – In addition to standard ready-to-view reports, manipulating data with filtering, sorting and grouping has never been easier to configure and save in a custom report. With definable reporting privileges extended to application-wide password protection, Asure ID Enterprise enhances your ID data security.

Tools at your fingertips

- Multi-task with tabbed navigation, and effortlessly switch between card design and data entry, managing each independently.
- The toolbar puts frequently used elements into logical order.
- De-clutter the workspace by hiding colors and attributes until they're needed, using pop-out control palettes.
- "What You See Is What You Get" display helps ensure accurate card design by showing exactly how a card will print, including data place-holders.

Productivity has never looked better.
Asure ID 7 changes the paradigm of how ID card personalization software looks, feels and performs. A fresh new user interface and simplified processes make ID card template design and data entry extremely easy. With Asure ID, you have everything you need to design and populate a card, allowing you to glide from card design to data entry to printing and reporting.

Everyday work made effortless.
Routine tasks can be performed with a couple of mouse clicks. It's a snap to capture or load a photo, void a card or set the print counter. And you can populate card data fields directly from the internal Microsoft® Access® database or Live Link to a networked Microsoft® SQL Server®. These and other frequently-used features are within easy reach on the Microsoft "ribbon"-inspired toolbar.

Standard features:
Asure ID "remembers" with automatic start-up loading of the last template and report used while also limiting or granting access to specified Asure ID modules and templates through advanced user defined privileges.

Quick Filter wildcard search on any field in the database. **Global Find** extends this convenience across all linked databases and templates.

Auto-Enhance records photos with the click of a button.

Additional features:
SIF Agent optional add-on enables Asure ID Enterprise to meet the Schools Interoperability Framework (SIF) standard, allowing consistent data sharing and elimination of double data entry and inconsistencies across other SIF-compliant schools and districts.

Asure ID Enterprise expands **database connectivity** and networking for enterprise class card issuance with support for Microsoft Access and SQL databases and ODBC import. When your needs grow to include technology card support, simply upgrade to Asure ID Exchange to add features and functionality.

SPECIFICATIONS

GENERAL	SOLO	EXPRESS	ENTERPRISE	EXCHANGE
Operating System Support: Windows® 7/8.1/10 including Windows Pro Tablets	■	■	■	■
Language support: English, French, German, Spanish, Russian, Portuguese (Brazil), Italian, Japanese, Korean, Simplified Chinese, Thai, Indonesian, Arabic, Turkish, & Czech	■	■	■	■

[1] Manage and control card access formats, smart cards and card applications.
[2] Available when used with FARGO® HDP8500LE.
[3] Storage limitations based on Microsoft Access.
[4] Bi-directional data exchange with third party databases and applications.
[5] Additional purchase.
[6] Asure ID site licenses enable sharing of networked database information on multiple workstations.
[7] iCLASS® Standard/SE/SR /Seos®, MIFARE DESFire® EV1, HID Prox.
[8] Free updates do not apply to major product releases.

ASURE ID® MEETS THE CARD APPLICATION NEEDS OF:

- Large Corporations
- National ID Programs
- Drivers Licenses
- Government/ Military
- State & Local Government
- Healthcare
- Education

Supports Windows® Pro Tablets

HID GLOBAL® IS THE LEADER IN SOLUTIONS FOR THE DELIVERY OF SECURE IDENTITY.

Asure ID is just one part of a complete, integrated system for the issuance, management and authentication of secure IDs. Your HID Global dealer can custom design a secure identity system using proven HID components including:

- FARGO® ID Card Printer/Encoders
- Cards, ribbons, films and overlaminates
- ID card production services
- HID contact and contactless card readers, including iCLASS® smart card readers
- Lumidigm Fingerprint Sensors

The suggested minimal system requirements for Asure ID 7 are:

- 1 GHz or faster processor
- 1 GB RAM
- 1 GB available hard disk space
